ProjFlow Brand Guidelines

From Proposal to Final Defence. | Brand identity specification v1.0

Brand positioning

ProjFlow is a centralised platform for managing, supervising and evaluating final-year academic projects. The identity communicates professionalism, clarity, accountability, progress and reliability.

Logo system

Primary	Default logo for light backgrounds.
Reversed	Use on dark backgrounds.
Monochrome	Use for single-colour print or constrained reproduction.
Symbol / app icon	Use for favicon, app tile and compact brand placements.

Colour palette

Colour	Hex	Primary use
Midnight Navy	#101C36	Navigation, headings, dark surfaces
Royal Blue	#2563EB	Primary actions, links, highlights
Teal	#14B8A6	Progress, success and positive states
Light Grey	#F1F5F9	Backgrounds and neutral surfaces
White	#FFFFFF	Content surfaces and reversed logo elements

Typography

Montserrat is specified for the brand wordmark and major brand headings. **Inter** is specified for application UI, body text, labels, tables and data. Recommended weights: 700 for brand headings, 600 for section headings, and 400–500 for body and interface text.

Usage rules

Use SVG masters wherever possible. Preserve aspect ratio and clear space. Do not stretch, skew, recolour, rotate, rearrange or add effects to the logo. Use the primary logo on light backgrounds and the reversed logo on dark backgrounds. Do not rely on colour alone to communicate interface status.

Product voice

Use concise, clear and academically appropriate language. Examples include “Submit Project Topic”, “Supervisor Review Required”, “Submission Approved” and “Final Submission Deadline”.

Clearance note: This is a working product identity. Trademark, business-name and domain clearance should be completed before public commercial launch.
